

/ True renewal isn't applied. It's activated.

PRECISION SKINCARE SUPPORT

revived Regenerative Peptide Serum is designed to help improve the visible look of skin renewal, firmness, and resilience. It combines natural peptides with plant-based Goji Berry Stem Cells to help skin appear smoother, more hydrated, and more revitalized over time. With consistent use, it helps improve the appearance of texture, elasticity, radiance, and overall skin vitality while supporting the look of stronger, more resilient skin. Precision skincare support that signals, preserves and amplifies. This is your daily SPA method.

BEAUTY IS MORE THAN WHAT'S ON THE SURFACE

It goes deeper. Precision skin begins with how skin cells signal, build, and preserve themselves. Every cell remembers its potential — Bioactive Precision Peptides™ help remind it. Precision Skincare by MAKE was created for skin that is not simply aging on the surface, but changing in how it signals, builds, and protects itself. Rather than temporarily treating the visible signs of aging, the system is designed to support the foundational processes that help skin look firmer, smoother, hydrated, and more resilient over time.

THE SPA METHOD™

SIGNAL · PRESERVE · AMPLIFY

S

SIGNAL

The Signal step is powered by natural, bioactive peptides from Sacha Inchi — a star-shaped seed from a Peruvian Amazon vine. Rather than simply adding material, these peptides act like a message, helping improve the visible look of skin renewal and supporting skin's natural communication pathways.

WHY YOU NEED IT: YOUR SKIN DOES NOT JUST NEED SURFACE CARE. IT NEEDS COMMUNICATION — PEPTIDES HELP SUPPORT THE SIGNALS THAT TELL SKIN TO KEEP RENEWING AND REBUILDING.

P

PRESERVE

The Preserve step helps support balance. Green tea, pomegranate, and hibiscus help reduce the visible effects of oxidative stress and support overall skin vitality — helping protect the appearance of skin structure while supporting the look of stronger, more resilient skin.

WHY YOU NEED IT: RENEWAL IS ONLY PART OF THE STORY. YOU ALSO WANT TO HELP PRESERVE THE STRUCTURE YOUR SKIN IS WORKING TO MAINTAIN.

A

AMPLIFY

The Amplify step provides the support system your skin needs to look hydrated, smooth, and radiant. Plant-based Goji Berry Stem Cells, niacinamide, and multi-dimensional hyaluronic acid work together to help improve the appearance of texture, elasticity, and radiance over time.

WHY YOU NEED IT: YOUR SKIN NEEDS HYDRATION, STRUCTURE, AND NUTRIENT SUPPORT TO COMPLETE THE RENEWAL PROCESS — FROM WITHIN AND ON THE SURFACE.

TIME

Ingredient Blend Breakdown /

SACHA INCHI PEPTIDE

Natural, bioactive peptides from the Sacha Inchi seed — a superfood packed with plant-based omega-3 fatty acids, protein, fiber, and antioxidants. Shown to help decrease the look of facial sagginess for a more contoured jawline, restructure and smooth skin, increase the look of dermis density, and reduce the appearance of wrinkles.

GOJI BERRY STEM CELLS

Plant-based Goji Berry Stem Cells help improve the appearance of texture, elasticity, and skin radiance — promoting the look of smoother texture, visibly improved skin density, softened fine lines, and more defined-looking facial contours.

GREEN TEA, POMEGRANATE & HIBISCUS

A botanical antioxidant trio that helps reduce the visible effects of oxidative stress and supports overall skin vitality — supporting the look of stronger, more resilient skin day after day.

NIACINAMIDE + MULTI-DIMENSIONAL HYALURONIC ACID

Niacinamide and multi-dimensional hyaluronic acid work together to improve skin hydration and moisture for a more hydrated, glowy appearance — helping skin appear smoother, more hydrated, and more revitalized over time.

Skin Benefits

- VISIBLY LIFTS THE LOOK OF FACIAL CONTOURS FOR A FIRMER, MORE SCULPTED APPEARANCE
- IMPROVES THE APPEARANCE OF SKIN ARCHITECTURE AND DENSITY FOR FIRMER, MORE RESILIENT-LOOKING SKIN
- REFINES TEXTURE, LEAVING SKIN SMOOTHER, SOFTER, AND MORE POLISHED
- AMPLIFIES VISIBLE SKIN RENEWAL SIGNALS TO ENHANCE THE APPEARANCE OF OVERALL SKIN VITALITY
- REINFORCES SKIN DENSITY FOR A PLUMPER, MORE RESILIENT LOOK
- DIMINISHES THE LOOK OF FINE LINES AND DEEPER WRINKLES OVER TIME
- A SIMPLE DAILY RITUAL THAT FITS INTO YOUR ROUTINE

How It Works Differently

Ordinary serums temporarily treat the visible signs of aging on the surface. **revived** is designed to support the foundational processes of skin — how it signals, builds, and protects itself. It helps support skin in three ways:

Signal

Bioactive peptides from Sacha Inchi help improve the visible look of skin renewal.

Preserve

Green tea, pomegranate, and hibiscus help reduce the visible effects of oxidative stress.

Amplify

Plant-based Goji Berry Stem Cells, niacinamide, and multi-dimensional hyaluronic acid support hydration, texture, and radiance.

True renewal isn't applied. It's activated — this is your daily SPA method for skin that looks renewed, hydrated, firmer, and more resilient over time.

[HOW TO USE]

Press the button dropper to dispense 2–4 drops of revived onto your fingertips. Gently press and tap into the face and neck until fully absorbed. Use more as needed. Follow with replenished Polypeptide Stem Cell Emulsion.
